Apple iPhone 4 is the latest version of Apple's flagship Smartphone. Apple iPhone 4, as expected, comes with new features and improvements to keep the competition busy for some time to come. The Apple iPhone 4 is faster and thinner than its predecessor and boasts of new features like multi-tasking, video-chat on Wi-Fi (FaceTime), gyroscope sensor, and a brand new operating system, the iOS 4. It also boasts of a better camera, a better display, a more powerful processor, and longer battery life when compared with the iPhone 3GS.
